TEACHERS

Douglas, Howell, Oregon, Ozark, Shannon, Texas, & Wright Counties

Public school teachers are invited to a Training Workshop and Field Trip about Ozark waters and geology. You will gain hands-on teaching methods and tools to help students understand watersheds, groundwater, water quality, water use, conservation, stewardship, karst topography, and how human actions and decisions affect water quality.

Teachers who attend will receive:

- \$300 stipend for attending the two-day workshop and field trip;
- Two student-friendly water quality testing kits; and
- Four school districts, with participating teachers, will have the opportunity to receive \$5,000 in funding for field trips to local Ozark karst features such as springs, streams, losing streams, sink holes, and caves.

CHOOSE BETWEEN THESE TWO SESSIONS:

April 29-30, 2023 (Field Trip rain date: May 7, Registration deadline: April 15)

Workshop: Mountain View Community Center, **Field Trip:** Grand Gulf/Mammoth Spring

July 25-26, 2023 (Field Trip rain date: July 27, Registration deadline: July 11)

Workshop: Mountain View Community Center, **Field Trip:** Round Spring/Devils Well/Alley Spring

Register online: KarstintheOzarks.org

Questions? Contact Tegan Vaughn at 417-247-7875 or tvaughn@scocog.org

Workshop materials are in line with Missouri Learning Standards for Earth Systems and Human Activity. These workshops are hosted by the South Central Ozark Council of Governments (SCOCOG) and Ozarks Resource Center using grant funds from the US Environmental Protection Agency and the South Central Solid Waste Management District.
